

Faith Lived

Faith Loved

G.I.G

International Mission Experience

Missio Scotland provides an opportunity for participants to immerse themselves in the faith, culture and daily life of communities in Africa. Missio Scotland's extensive mission work and activities provide us with close links to projects, parishes and school communities in these developing nations.

Our intent is to travel lightly and with purpose. Our group consists of a relatively small team, comprising 15 to 20 people, to enable us to interact in an appropriate manner with our host communities.

A mission experience will touch your heart, engage your mind and nourish your spirit. We will spend time connecting with the local community, sharing stories and *being with* people. In many locations we will be welcomed like family and be blessed in appreciating their warm welcome and simple hospitality. Our time will include rich experiences such as sharing cultural traditions and stories. We will have the opportunity of walking in their shoes for a brief time. We will spend time visiting those who care for the sick, look after orphans and teach children and many other initiatives, through the programmes run by our mission partners.

Come and experience prayer, community, music and Eucharist like no other! Meet Catholic Sisters and Brothers who live and work within the communities. The purpose of this experience is to develop an understanding and appreciation of the host community culture while learning about ourselves.

Whether it's assisting in teaching English, helping with homework, playing games with children or helping to prepare local food in a village, or care for children in an orphanage, or celebrating the Eucharist in a parish, your experience will open your eyes and your heart.
